MATLAB Projects:

1. Image Processing Using MATLAB for Tumor Detection

2. Voice Recognition System Using MATLAB

3. Face Recognition Using PCA in MATLAB

4. ECG Signal Analysis Using MATLAB

5. Object Tracking Using MATLAB and Kalman Filter

6. Digital Image Watermarking Using MATLAB

7. Vehicle Number Plate Detection Using MATLAB

8. Power System Load Flow Analysis Using MATLAB

9. Renewable Energy Source Analysis Using MATLAB Simulink

10. Speech Emotion Recognition Using MATLAB

11. Smart Traffic Control System Simulation in MATLAB

12. Brain Tumor Detection Using MRI Images in MATLAB

13. Solar Tracking System Design Using MATLAB Simulink

14. Heartbeat Signal Monitoring and Analysis Using MATLAB

15. Image Compression Using Discrete Cosine Transform in MATLAB

16. Fire Detection System Using MATLAB Image Processing

17. Automatic License Plate Recognition Using MATLAB

18. Object Classification Using Machine Learning in MATLAB

19. Satellite Image Processing Using MATLAB

20. Face Detection and Recognition Using MATLAB GUI
